Legacy File

March 10, 2020 (Replaced: June 17, 2005)

- Wiring harnesses consisting of Certified components such as connectors assembled on wiring material, No 30 to 6 AWG, insulated equipment wires, insulated conductors (Types TR-64, etc), consisting of various lengths of these wires cut, stripped and/or semi-stripped without additional components, to customer specifications.

Notes:

1. These assemblies are not for interrupting current.
2. Certified for use as components of Certified electrical equipment where the suitability of the combination is to be determined.
3. Sold only to manufacturers for use as components in the assembly of Certified electrical equipment.
